Attention Senior Official Performing the Duties of the Director, U.S. Immigration and Customs Enforcement
Tony H. Pham (a man) co-surety/Trustee,

Please comprehend the information written in this notice titled, " Notice Of Infraction: Trespass:Charges:Freedom Of Information: Orders " and invoice with all seriousness. We are charging the border officers (public "servants") who proceeded to violate me and my properties and stole property from me including yet not exclusively my wife on October 7, 2020, and we are also charging for the violations that were made against us by the same border officers, and who brought physical and mental harm to us in this transaction. And as a result of this transaction a Trust and the Estate has arisen.

By the Power of Appointing Exclusive Equity ie/I(body, mind, spirit/eternal soul, infinite awareness) king: raymond-dale of the father's house of shackelford and the mother's house of hyatt aka king: zelan: being of sound mind and the successor and living heir and beneficiary entitlement interest holder of the trust and the estate appoint you retroactively, Tony H. Pham (a man) as Trustee and ie/I appoint Secretary Steven T. Mnuchin US Treasury Secretary as Executor. As the Trustee you have the fiduciary duty to protect the trust and the estate ant to ensure all immunities are granted as result of all previous indiscretions to clear my good and proper name. And to ensure that no one has or will use our name in a derogatory or intrusive or malicious way with a malevolent intention. We expect any all disputes involving the inheritance to be resolved forthwith.

The individuals working on said date completely ignored a valid contract between a man (husband) and a woman (wife) having chosen to have a traditional marriage (one made in heaven) and had/have been travelling in our 24 foot travel trailer in the mid south of what is called, "the united states" staying in "core of engineers campgrounds" since our holy reunion on November 25, 2019 in spokane.

We were put through hell as a result of the men working at the border crossing who created the controversy by ignoring our claims. We are bringing it forward that they have mistaken our name and our presence because they are spiritually bereft and mentally and emotionally deranged. It is my intention to correct this immediately and require you to get the necessary discharging papers/documents so that we can discharge all controversy, clear all warrants, and have the subrogation of any and/or all bonds. It is my intention to discharge any and all obligations that permitted this controversy to arise in the first place forthwith. We wish to discharge any and all energy to bring harmony and balance to our life. And as a result of the spiritual bereftness and mental and emotional derangement of the individuals working the day we were heading north to our home in penticton we sustained considerable loss and damage(s). These men could have easily let us continue on our way so that my wife and ie/I could enjoy our life together in eternal happiness. My wife was made to endure sitting on a cold steel bench for 22 hours straight, because my car was stolen from her on the canadian side of the border and she was threatened by the men dressed and acting as officers.

We being king:raymond-dale: aka king: zelan: expect the restoration of our good and true name. We demand you return my wife to me immediately by ensuring we have free passage to join her in our home in penticton, forthwith. If my wife is returned to me immediately, we will agree to drop all charges. If she is not returned, then we will be placing Tort Liens against the Surety Bonds on all the (wo)men working as officers for the "crown corporation(s)" involved and will be pressing charges for this infraction and trespass and for violently violating both me and my wife and my properties in said incidence and in previous encounters.

This is nothing personal, we deserve to have recourse. it is my intention to restore my good and true name and want to be united with all my properties we were/was in use of including my wife (who is my property) and expect her to be returned to me without further loss or injury to either me or her so that we can enjoy each other and enjoy eternal life.

Under the freedom of information we require you to provide us with the name(s) of all (wo)men on shift of said date as well as their reports and list all phone conversations made on this day that involved our name(s) and we require to know what "Government Agencies" were involved and we demand to know what individuals were consulted regarding this infringement and trespass.

We require you to send this information via registered mail to our okanagan address without delay:
