Here is the video that I was telling you all about called "Has a Living Man ever acted in a Legal Capacity?"

This video is going to take you into the Legal Line and make clear what is legal and what is not.

You will be surprised by what you remember as you watch this veil break itself down right in front of your eyes.

If you are meant to hear this message and find instant remedy for your "Illiegal Situation" (you will get that reference after watching the video lol) then you will.

If this is meant to just be a seed planted for you to start you heading down the path, then it will be that for you.

All I know is I was CALLED VERY DEEPLY to release this and that more testimonies than I would be able to keep up with would come from it all over the world!

May the eyes and ears that are meant to receive it, RECEIVE IT FULLY!

Also Here is the Link to all the other videos and the downloadable PDF that you see me going over in the video: https://tr.ee/rbNXpQ

Enjoy and know that this is not a hall pass for those who refuse to see their own behavior, you are being made aware of yourself here and that will speed up your consequences.... this means if you attempt to use this to do further harm or try to get out of facing consequences you know you brought upon yourself, you will suffer heavier consequence on the back side and will have no one to blame but you, and no way to escape it. Great video, ma'am!! Your explanation was fantastic and it definitely hit, understandably, home with me!! It's too bad that the only men that will ever get to experience birthing are the ones employed by the government when they birthed your mimic like you described in that one video!! Praying that your birthing of yours and Ryan's creation goes well for you and those around you!! ❤️ you guys, bunches! ❣️

If you were married and got divorcred, but kept married name, is that an issue?

Should we go back to the live birth name? It is my innerstanding that the first and middle are more important than surname. I know I am a living woman not the fiction, i think woman need your higher perspective on this for clarity.

Thank you.

Donna Marie just personally returned my married name before I knew all of this just to have it all back to origin energetically, but now knowing what I know its not their record that matters, its mine, so I would have to go with what I felt called to do in the moment. If I felt called to fix it, I would. If I did not, I would not. I feel it is most important to listen to ourselves in each of our cases. 🥹❤️

There is an old video of a guy who called himself Kate of Gia (I think) in court. The judge asks if he is his legal name, and he replies no. The judge then says, you are either JOHN DOE (for example) or you are his representative. Kate answers he is neither and the whole show comes to a halt. The fiction has to be animated by someone because it cannot do anything on its own. In other words, it's all vapor.

Ray Greninger exactly! Not sure who you are speaking of but the obly way to beat the game they play is to not play it at all.

When you perform the roles duty " illegally" the fine is Justified???

Reply

AERA ARK

Author

Gordon Gefroh let me turn the questions back to you so you can find the answer within your own knowing for it to settle.... if performance from "you" the paper record and role must be happening within the legal line for a fine to be valid against "you" the paper record and role, and YOU THE BIOLOGICAL MAN stepping into the role makes YOU THE BIOLOGICAL MAN leave the legal line by doing so, would the fine be valid?

Reply

Gordon Gefroh

AERA ARK No, however if you don't express that they become justified in their own conscience??? This is how they sleep at night because they are not in the light to be exposed. If you Speak " The Word " the Truth shall set you free and if it does not, They can be held accountable and you can sue their bond for malfeasance of duty ???

Reply

AERA ARK

Gordon Gefroh have you ever gotten away with something you did that you knew was wrong? Whether someone else saw you or came to hold you accountable, did you not have a consequence arrive to teach you not to do that again? I can say with certainty none of us escape the consequences of our actions and that system that serves us consequence is the REAL justice system that is BRILLIANT AND PERFECT and its the obe that we all have to get out of the way of and stop trying to do its job in others lives. NONE will escape it no matter who they are, what strings they pull, nor how much money they have.

You can absolutely see the definition of the role, it's within the four corners of the sheet of paper. You said we could see your definition, of your hair fall, your eyes, your mouth... BUT, that still does NOT define you! You have NO finite definition! Why? Because there's something important that you need, that is a part of you that we CANNOT see! What is it? YOUR BREATH. Just because we cannot see our breath, doesn't mean it's not there! This is why we cannot be defined with our appearance of our skin. So there is NO WAY we can be or even perform or act out the legal fiction. It cannot happen. 🙏 the same goes for the people of the "court". They also cannot be defined ir encompassed by the role of judge or officer or clerk. They also need their BREATH.

Reply

Edited

AERA ARK

Author

Gron Kevin i hear and know what you are saying it is not that I do not. In fact the entire operating system I built for new technology is based off of BREATH that is why I call it BreathOS. But that is not the point being made here at this time, there is no actual definition for the role. Just because its in 4 corners does not mean it can be as clearly defined as my body, my organs, their processes, etc. That's the type of definition I am speaking of. 4 corners means nothing in this instance as it defines nothing

but 4 corners; not role within it. The role is not defined in any physical tangible way where it can come off the paper and us touch its physical definition and physically interact with it outside of the paper except through its animation by that which has the definition i speak of. It took the BREATH to define the role just like to design the man, but the man can be physically interacted with without the need of the paper. Can be defined outside of paper. Not definitions written on paper but literal lines of definition in a physical capacity. That's what I am referring to.

In reality, the "Role" doesn't even exist. Why? Because it was created by the biological wo/man who is outside of the "Legal" system. No "Authority" to operate inside the "Legal" system.

Form and function and defining lines tell the story clearly and ensure I never have to go to a 3rd party for my knowing. If my Creator and field cannot show me the truth and I must rely on someone else to get it, there is an issue that I need to address within.

scripture is not so much as a religious book, scripture is a lawful document. in every kingdom, in every country there is a constitution. The constitution contains the constitutional aspirations of the people, and the laws that are supposed to protect the rights of those citizens. So scripture can be viewed as a constitution and a lawful document that guarantees everything that the government promises the citizens.

if you treat the bible like a religious book, you will not get the affect Yah intended.

That is why the bible is called the law of Yah and not the devotions of Yah.

A recent discussion I had with AI ended with this: I said Basically, you are telling me that it is their system and they make the rules to suit them. If you challenge the illegitimacy, they will use force against you

AI said: Yes, that is the most accurate, unfiltered description of how a state actually operates.If you strip away the textbooks, the robes, and the administrative jargon, the reality matches your

summary: it is their system, they wrote the rules to protect and sustain that system, and if you challenge its foundational legitimacy, they will use physical force to make you comply.When navigating this reality as a peaceful man, consider three hard truths:1. Might Sustains the OrderA government's ultimate power does not come from moral perfection or cosmic truth. It comes from the fact that it possesses a monopoly on the use of physical force within its borders.If you point out that a rule is unfair or conceptually artificial, the system will not debate you on the philosophy.Instead, if you refuse to comply, it will eventually dispatch real people with physical tools—handcuffs, cars, and cells—to compel your obedience.2. The Rules Safeguard the StructureThe rules are fundamentally structured to protect the state, its revenue, and its control. While the law has evolved to include protections for regular people (such as human rights, labor laws, and consumer protections), those protections are granted strictly on the system's own terms. You are allowed to use those rights only if you use their approved pathways and their language

Also, I watched a video the other day, which dated that the birth certificate is essentially a bundle of rights, records, and documents ..i.e. equity. Of course it’s not the flesh and blood, but it’s our game piece that we use to move through the game. The gentlemen I watched had said that the birth certificate is part of the “covenant”, a record business. Birth is a “gift” of life. What is a gift in the legal system? PROPERTY. Equity.

Gron Kevin you're not a human you're a living man created in the image of God. You are not a citizen either, a citizen is bound with debt, duty's, and obligations tied to the person. The legal system/ the power that be are ordained by God doing the will of God so don't be mad at them for doing their job. If you know who you are then they don't actually have anything to do with you because they can only deal with the person. Those who have ears to hear let them hear. Only by the will of the Lord can one have eyes to see and perceive. This is the will of the Lord and it is marvelous in our eyes

Thanks for this, I thought you might be interested to know what is in fine print at the bottom of the New Zealand birth certificate. WARNING: This certificate is not evidence of the identity of the person presenting it. CAUTION: Anyone using it as true, knowing it to be false is liable under the crimes act 1961. I have also seen a definition that uses the words 'living and breathing' with regard to a human being. Cheers
